Subject: thank u

We had an absolute wonderful time. My husband talked about the show ffor the last 3 days. He went out and bought 2 frames to put his picture and his academy award in. We laughed from the time we came until we left. Officer Dorsey was spectacular he kept the momentum going the whole time the rest of the cast was fantastic. I do remember seeing some of them from t.v. You can bet we willbe back soon and have put the word out to friends and family that this is a must see must experience type of thing. Than you for making our Anniversary extra special
